Education

Enrollment

For districts that operate shared-time programs, headcount enrollment may be inflated, due to the inclusion for reporting purposes of students from other school systems that attend the districts' schools on a part-time basis and receive non-core academic instruction.

Headcount Enrollment: The number of individual students enrolled in the school district. Headcount enrollment includes special education and alternative education students, but excludes pre-kindergarten and adult education students. (Michigan Department of Education K-12 Database)

Table 1: Missaukee and Wexford - Percent of School Age Children Enrolled

School Enrollment	School-Aged Children as Percent of Total Population	% School-Aged Children Enrolled in Public School
Lake City Area School District	21.0%	78.6%

While 97% of the children in this geographic area are white, there are 452 school age children in Missaukee and Wexford Counties from other racial groups.

Children with Disabilities*

*US Census Bureau defines *Disability* as "a long-lasting physical, mental, or emotional condition. This condition can make it difficult for a person to do activities such as walking, climbing stairs, dressing, bathing, learning, or remembering. This condition can also impede a person from being able to go outside the home alone or to work at a job or business."

Educational Attainment

Missaukee and Wexford Counties, compared with Michigan averages, had

- A lower percentage of young adults (ages 18 – 24) who are high school graduates
- A higher percentage of young adults (ages 18 – 24) with post high school education

Table 11: Missaukee and Wexford Counties, Educational Attainment - Ages 18 - 24

Chart 7: Educational Attainment of Adults Ages 25 Years and Over by Zip Code

These data estimate the total population residing within Missaukee and Wexford county school districts by mapping U.S. Census Bureau data to school district boundaries

EDUCATIONAL ATTAINMENT OF 25+ YEAR OLDS by Zip Code (2002)

Drop Out and Graduation Rates

Drop Out Rate: The percentage of students who left school and did not return during the following school year - calculated by subtracting the retention rate from 100%. The dropout rate is a single-year rate that applies to grades 9 through 12. Students who leave secondary school to enroll in adult education programs for General Educational Development (GED) preparation, home schools, private/parochial schools, or charter schools are transfers, not dropouts.

Graduation Rate: An estimate of the percentage of ninth grade students who will complete their senior year of high school and graduate - calculated by multiplying together the four retention rates for grades 9, 10, 11, and 12.

(Michigan Department of Education K-12 Database)

Merit Awards

Another measure of student achievement is the number and percentage of Merit Award recipients. Merit Award Scholarships awards began with the senior class of 2000. MEAP scores are the primary qualifier.
